

SharePoint Training Course Contents

This course is made for SharePoint developers. If you want to become an expert in SharePoint development, then this is the ideal course for you. Because this is a complete training course from beginners to advance level and is more than 100+ hours that you can access lifetime.

About Trainer:

Bijay Kumar Sahoo:

Bijay Kumar Sahoo is a Microsoft MVP (8 time and continuing) in Office Servers and Services category specialized in SharePoint. He has more than 14+ years of experience in Microsoft technologies like SharePoint, Office 365, SharePoint Online, SPFx, Power Apps, Power BI, Power Automate, Azure, Nintex etc.

Bijay is a SharePoint consultant, trainer and founder of TSInfo Technologies a SharePoint development company in India. Bijay also focuses on SharePoint technical blogging and blogs in EnjoySharePoint.com and SPGuides.com.

MVP Profile URL: <https://mvp.microsoft.com/en-us/PublicProfile/5000972>

SharePoint Training Course Contents:

URL to Enroll: <https://sharepointsky.teachable.com/p/sharepoint-training-course>

Module-1: Introduction to SharePoint, Office 365 and SharePoint Online

- What is SharePoint and Advantages (10:46)
- SharePoint Userbase (2:11)
- Types of Users in SharePoint (1:51)
- Different ways to access SharePoint (9:25)
- What is Office 365 (9:31)
- Office 365 Plans and Sign up (15:53)
- Sign up for an Office 365 E5 Trial (From my YouTube) (12:38)
- Office 365 Services (21:03)
- SharePoint Online vs SharePoint on-premise (11:35)
- Office 365 Administration (21:20)
- Working with Users and Groups (24:22)
- SharePoint Online Admin Center (13:58)
- Enable Self service password reset in Office 365 (17:17)
- Change Office 365 Theme (4:24)

TSInfo Technologies (OPC) Pvt Ltd

Room 105, 5/2, SJR Residency, Devarabeesanahalli, Bellandur, Bangalore, 560103
Email: info@tsinfotechnologies.com, Phone: +91-9916854253

- Office 365 Help Pane (6:13)
- SharePoint Customization (23:39)

Module-2: SharePoint Site Collection and Sites

- SharePoint site collection and sites - how to consider (11:58)
- SharePoint Online Modern Experience (14:42)
- Different ways to create SharePoint Online Site (Classic and Modern Team Site) (24:37)
- SharePoint Home Site (12:11)
- SharePoint Classic Site Customization (31:06)
- SharePoint Subsites (12:41)
- SharePoint Online Communication Site (20:27)
- SharePoint Online Modern Team Site Customization (19:25)
- SharePoint Online Modern Search Experience (4:30)
- SharePoint Online Hub Site (18:00)
- SharePoint Online Pages (22:48)
- Customize SharePoint Online Modern Site Pages (17:12)
- SharePoint Online Modern web parts (31:02)
- Hero Web Part in SharePoint Online (10:28)
- SharePoint Online quick chart web part (22:20)
- SharePoint Online highlighted content web part (21:41)
- SharePoint online calendar web part or event web part (9:07)
- Customize SharePoint Online Site Left Navigation (6:04)
- SharePoint Online Recycle Bin (6:45)
- SharePoint Online Site Template (7:46)
- How to change SharePoint Online Site URL in Details (22:13)
- Create custom theme in SharePoint online (14:01)
- SharePoint Online storage limits (16:47)
- SharePoint Online modern page customization and Create modern page
SharePoint Online PnP PowerShell (24:42)

Module-3: SharePoint List (Classic & Modern)

- SharePoint Online List (16:08)
- Add Edit and Delete List items (9:32)
- Introduction to Calendar, Task, Issues lists, Survey list, Contact list (13:04)
- Working with Custom list and columns (21:11)
- Lookup and unique columns (12:58)

TSInfo Technologies (OPC) Pvt Ltd

Room 105, 5/2, SJR Residency, Devarabeesanahalli, Bellandur, Bangalore, 560103

Email: info@tsinfotechnologies.com, Phone: +91-9916854253

- Understanding List Advanced Settings (12:42)
- Ratings and Column Ordering (4:27)
- SharePoint List Versioning (6:05)
- Content Approval in SharePoint Online List (8:32)
- SharePoint Calculated Column (9:45)
- Working with SharePoint List Views (22:30)
- SharePoint Online List template (classic and modern) (10:23)
- SharePoint Site Column and Content type (40:55)
- Alert Me in SharePoint Online List (8:24)
- Import Spreadsheet in SharePoint Online (4:51)
- Show or Hide Columns from Modern SharePoint Online List Forms or Views (Easiest Way) (4:05)
- How to use Choice Column Formatting in SharePoint List (5:44)
- Create a list from excel in SharePoint Online (8:53)
- Open SharePoint List in Excel + Update excel from SharePoint list automatically (15:15)
- Microsoft Lists - New Microsoft 365 App (24:38)
- Commenting Feature in SharePoint Online list and Microsoft Lists (14:16)
- SharePoint Change Column Order List or Library Forms and SharePoint List Views (13:35)
- SharePoint List (Classic SharePoint List) Part-1 (26:10)
- SharePoint List (Classic SharePoint List) Part-2 (24:21)
- SharePoint List Calculated Columns and Validations (29:09)
- SharePoint List (Classic SharePoint List) Part-3 (22:48)
- SharePoint List (Classic SharePoint List) Part-4: Indexed Column, Import SpreadSheet etc (24:45)
- SharePoint List (Classic SharePoint List) Part-5 List Views, List Throttling etc (22:03)

Module-4: SharePoint Library (Classic & Modern)

- SharePoint Online Document Libraries (12:30)
- Add Edit delete document and create template (8:31)
- Check-in Check-out and Discard Check-out in Document Library (6:55)
- Working with Columns and Metadata (8:02)
- Metadata with SharePoint Site Columns (13:56)
- Enterprise Metadata and Keywords Settings for List and Document library (5:26)
- SharePoint Online Document Library Versioning (5:19)
- Content approval in SharePoint Online Document library (7:11)
- Pin To Top Feature in SharePoint Modern Document Library (2:33)

TSInfo Technologies (OPC) Pvt Ltd

Room 105, 5/2, SJR Residency, Devarabeesanahalli, Bellandur, Bangalore, 560103

Email: info@tsinfotechnologies.com, Phone: +91-9916854253

- Copy Move and Download Documents in Modern Document Library (5:00)
- Open with Explorer or View in File Explorer in SharePoint document library (4:16)
- Working with Document Library Views (16:48)
- Modern Document Library New Features (6:36)
- Metadata Navigation and Filtering (Classic Document Library or List) (7:27)
- Item required attention feature in modern list or library (6:33)
- How to use content types in SharePoint document library (22:26)
- Document Sets Vs Folder - How to use Document Sets (16:19)
- Term Store Management in SharePoint Online (14:06)
- SharePoint Document Property Promotion (12:58)
- Add thumbnail column in SharePoint Online Document Library (2:38)

Module-5: SharePoint Permission Management

- SharePoint Online Permission Management with Groups and Permission Levels (18:01)
- Share a Site - Best Practices (5:40)
- Access Request Settings in SharePoint Online (5:11)
- SharePoint Online Modern Team Site Permissions (12:42)
- SharePoint Online Communication Site Permissions (3:39)
- SharePoint Online Hub Site Permissions (3:28)
- Share Link with anonymous users (7:01)
- SharePoint Document Library or List Unique Permissions (4:57)
- SharePoint Item Level Permissions (7:14)
- Share documents with External Users (3:45)
- SharePoint Permission Management (32:45)
- Unique permissions to SharePoint Pages based on Users (9:22)
- How to give unique permission to a folder in SharePoint Online document library (9:12)
- SharePoint Online External Sharing (14:57)
- SharePoint Audience Targeting (11:25)

Module-6: SharePoint Online Development

- GitHub Tutorial - Download Install and Use GitHub (22:25)
- HTML CSS and jQuery (44:44)
- JavaScript Variables and Constants (13:56)
- JavaScript Client Object Model (JSOM) (56:18)
- CSOM SharePoint (C#) (60:57)

TSInfo Technologies (OPC) Pvt Ltd

Room 105, 5/2, SJR Residency, Devarabeesanahalli, Bellandur, Bangalore, 560103

Email: info@tsinfotechnologies.com, Phone: +91-9916854253

- CSOM SharePoint (C#) Part-1 (38:24)
- Rest API in SharePoint and AngularJS (101:34)
- CSOM with Multiple Factor Authentication (5:58)
- CSOM SharePoint Online + Site Collection Examples (17:31)
- Working with Large List in SharePoint Online (11:03)
- Retrieve more than 5000 items using Rest API (7:16)
- Retrieve more than 5000 items using Rest API - DataTables (13:03)
- Insert more than 5000 items to SharePoint Online list using JSOM and Rest API (5:44)
- SharePoint Apps or Add-ins and SharePoint hosted Apps (31:23)
- SharePoint Hosted Add-in or Apps Part-1 (31:12)
- What is Microsoft Azure and How does Microsoft Azure Works (11:38)
- Azure Active Directory (Azure AD) (14:37)
- Create azure free account (without credit card) (12:34)
- How to connect to Azure and Azure AD from PowerShell (11:20)
- How to work with users in Azure Active Directory (20:58)
- Provider Hosted Add-in and Microsoft Azure (36:16)

Module-7: PnP SharePoint

- PnP SharePoint Core Library with Example (23:34)
- PnP SharePoint Examples - Create List Library folder and sub folders (30:47)
- Create Delete Sub Sites using PnP SharePoint CSOM (24:27)
- Create site column content type and list using PnP csom (39:23)

Module-8: SharePoint Workflows, Branding (Classic) and BCS

- SharePoint Workflow introduction with Out of Box Workflow Examples (31:07)
- Introduction to SharePoint Designer 2013 (11:23)
- SharePoint Designer 2013 Workflows (51:00)
- SharePoint designer workflow examples - Assign a task, Site workflow (initiation form parameters), Reusable Workflow, App Step (54:23)
- SharePoint designer 2013 workflow multi level approval, Approvers from SharePoint List (25:38)
- SharePoint Designer Workflow Example - Product Request (2 new Concepts) (18:32)
- SharePoint Master Page (43:04)
- Quick Step in SharePoint Online (14:42)
- Enterprise content management (Term store) (34:50)

TSInfo Technologies (OPC) Pvt Ltd

Room 105, 5/2, SJR Residency, Devarabeesanahalli, Bellandur, Bangalore, 560103

Email: info@tsinfotechnologies.com, Phone: +91-9916854253

- Business Connectivity Services (7:31)
- Business Connectivity Services: Create external content type, Business Data web parts (14:18)

Module-9: SharePoint Search

- SharePoint Search (28:26)
- Result Sources Content Search Web Part and Display templates (7:03)
- Content Search Web Part (3:16)
- Display Templates (12:39)

Module-10: PowerShell SharePoint

- PowerShell SharePoint Online (31:52)
- Introduction to Windows PowerShell ISE (7:58)
- How to use PowerShell get-date (13:37)
- 3 SharePoint PowerShell Example (26:47)
- PnP PowerShell Setup (4:42)
- PnP PowerShell Command (4:52)
- PnP PowerShell Examples (1:36)
- SharePoint Document Property Promotion (12:58)
- Disable Versioning in SharePoint document library using PowerShell and PnP PowerShell (17:40)

Module-11: Microsoft InfoPath

- Microsoft InfoPath Designer 2013 (62:29)
- Show hide section using rules InfoPath 2013 SharePoint Online (4:02)
- How to Customize SharePoint Online List using InfoPath Designer 2013 (4:06)
- InfoPath 2013 allow Multiple attachments (4:26)
- SharePoint Online InfoPath Designer 2013 Calculate Age from Date Of Birth (5:26)
- InfoPath Filter records using Data Connection Example (29:12)

Module-12: Microsoft Power Automate or Microsoft Flow

- The Power Platform (7:57)
- What is Power Automate or Flow - Updated (45:39)
- Power Automate Introduction, advantages, templates, services, connectors and Example (27:32)
- Power Automate Examples Part-1 (Approval example, Save Email Attachments to SharePoint, Save Tweets) (21:58)
- Microsoft Flow Examples Part-2 (Multi-level Product Approval) (22:21)
- How to get manager name in Power Automate (Flow) - Leave Request Demo (17:56)
- Mobile Flows and Button Flows with Example (15:21)
- Get Push Notification Flow Example (11:29)
- Copy Document from Document Library to Archive Library (9:07)
- Call Rest API from Microsoft Flow (17:22)
- SharePoint auto generate column value using Power Automate or Flow with leading zeros (28:47)
- Move file from OneDrive for Business to SharePoint Online using Power Automate and vice versa (12:25)
- Move all files from OneDrive for Business to SharePoint Online using Power Automate and vice versa (16:38)

Module-13: Microsoft Power Apps

- What is Power Apps and Licensing (5:46)
- Canvas apps vs Model-driven apps (1:25)
- Create your first app in Power Apps (12:26)
- Overview of Power Apps Studio (6:14)
- Customize Power Apps App Part-1 (9:16)
- Customize Power Apps App Part-2 (7:33)
- Customize Power Apps App Part-3 (6:26)
- Create an App for SharePoint List in Power Apps (10:03)
- Customize SharePoint Online List Form using Power Apps (5:28)
- What is Microsoft PowerApps and Examples (28:50)
- PowerApps Variables - Context and Global Variables (18:48)
- Microsoft PowerApps Collections and Gallery Control Example (14:36)
- Microsoft PowerApps Send Email with Interface Example (15:14)
- Microsoft PowerApps Customize New and Existing SharePoint List Forms (19:13)
- Microsoft PowerApps - Create New Edit and Details SharePoint List Forms from Blank App (17:44)
- Working with Choice Column in PowerApps (18:09)
- PowerApps Navigation with Collections and Switch Case (19:33)

- PowerApps Create Tabs and Show Hide Columns in SharePoint Forms (29:00)
- PowerApps Working with People Picker and Yes No Column Values (22:41)
- Working with PowerApps Data table (with Search functionality) (19:31)
- PowerApps Repeating Table (43:25)
- PowerApps Notification (24:32)
- PowerApps Data Table Filter based on value from another Data table (12:15)
- PowerApps Data Table Edit using Gallery Control (18:35)
- PowerApps Gallery Control Filter Sort with Examples (23:18)
- PowerApps Export and Import Package - Tenant Level (7:40)

Module-14: Microsoft Power BI

- Introduction to Microsoft Power BI training (1:51)
- What is Microsoft Power BI (1:59)
- Power BI Licensing (13:57)
- Different components of Power BI (3:28)
- Power BI roles (2:45)
- Understanding Power BI Desktop interface (7:02)
- Understanding of Visualization Dashboard and Reports (2:01)
- Create and Publish your First Visualizations (25:43)
- Power BI Filters (11:29)
- Create reports from SharePoint List (10:19)
- Power BI Slicers (15:39)
- Add Visuals from AppSource (Hierarchy Slicer) (4:57)
- Display Data in Table Visual (6:25)
- Pie Chart Vs Clustered bar chart or Clustered column chart (10:04)
- Card and Multi row card (11:15)
- Introduction to Power BI Desktop Query Editor (9:12)
- Query Editor Examples (14:25)
- Power BI Calculated and Conditional Column (6:53)
- How to split column in Power BI (9:09)
- Introduction to DAX (14:55)
- Difference between calculated column and measure in Power BI (7:08)
- How to use Function and IF in Power BI (7:34)
- Aggregation Function Sumx and Filter Example (12:51)
- Variables in Power BI (8:55)
- Power BI Table Functions (11:05)
- Publish and Share Power BI report (22:35)
- Publish to Web Power BI report (5:29)

TSInfo Technologies (OPC) Pvt Ltd

Room 105, 5/2, SJR Residency, Devarabeesanahalli, Bellandur, Bangalore, 560103

Email: info@tsinfotechnologies.com, Phone: +91-9916854253

- Embed Power BI reports in Microsoft Teams (2:59)

Module-15: SharePoint Framework (SPFx) Introduction and Prerequisites

- SharePoint Framework Introduction (11:14)
- SharePoint Framework Development Toolchain (17:13)
- SharePoint Framework Development Environment Set up (11:36)
- Create First SharePoint Framework (SPFx) web part (13:38)
- Package and Deploy SPFx Client Side Web Part (25:19)
- Understanding important files folders inside spfx web part (35:42)
- 3 Different ways to create SPFx Solution (13:03)
- Visual Studio Code Crash Course (31:03)
- Visual Studio Code Workspace (4:50)
- Node Package Manager (npm) (5:02)
- TypeScript Crash Course Part-1 (16:47)
- TypeScript Crash Course Part-2 (35:39)
- TypeScript Crash Course Part-3 (20:57)
- React Crash Course (22:56)
- React Component (26:56)

Module-16: SharePoint Framework Client Web Parts

- Create First SharePoint Framework (SPFx) web part (13:38)
- Create client side web part and Understanding of the project structure, files and folders (35:42)
- Package and Deploy SPFx Client Side Web Part (25:19)
- 3 Different ways to create SPFx Solution (13:03)
- Working with Mock Data in SPFx Client Side Web Part (14:28)
- SharePoint Framework (SPFx) Client Side Web Part Properties (37:32)
- Create Employee Of Month Web Part by using various web part properties (31:37)
- Employee Of the Month Web Part using React JS Framework with web part properties (23:06)
- Creating Component in SPFx React Web Part with Properties (17:08)
- More SPFX PropertyPane Examples with React (20:14)
- Understand Manifest file in SPFx Web Part (16:27)
- Working with PnP Property Pane Controls (27:40)
- Build Microsoft Teams Tab using SPFx Web Part (14:35)

- Working with charts in SPFx React Web Part (27:21)
- SPFx Logging (4:30)
- SharePoint Framework CRUD Operations using React (30:47)
- Add Multiple Web Parts in a Single SPFx Solution (7:46)

Module-17: Loading SharePoint Data in a SPFx client web part

- Working with context in SPFx Web Parts (15:54)
- CRUD Operations using SPHttpClient in SPFx - Insert Item Example (22:37)
- CRUD Operations using SPHttpClient in SPFx - Update List Item Example (16:33)
- CRUD Operations using SPHttpClient in SPFx - Display and Delete List Items Example (9:18)
- Employee Feedback Client side web part using SPFx (sphttpclient) (35:11)
- Get All Lists and Libraries in SPFx Client Side Web Part (8:26)
- Subsite Creation Process in SPFx Client Side Web Part (13:09)
- List Creation Process using SPHttpClient in SPFx (9:39)
- Display List Items in SPFx web part using React (24:01)
- Working with Anonymous APIs in SPFx with React (16:59)
- Working with External Libraries in SPFx Client Side Web Part (11:57)
- jQuery Accordion in SPFx Client Side Web Part (12:22)
- Working with Bootstrap and PnP in SPFx Web Part (12:29)
- Working with Graph API in SPFx Web Part - No JavaScript Framework (16:20)
- Working with Graph API in SPFx Web Part - React Framework (17:49)
- SPFx with Graph API SharePoint (React and No JavaScript) (25:51)
- SharePoint Framework Document Library Operations using Rest API, dataTables, toastr and bootstrap (26:13)
- SPFx List With Multiple Attachments Example (7:40)

Module-18: SharePoint Framework (SPFx) with PnP

- Introduction PnP JS Library in SharePoint Framework (SPFx) (14:56)
- CRUD Operations in SPFx Web Part using PnP Core JS Library - Insert (13:57)
- CRUD Operations in SPFx Web Part using PnP Core JS Library - Update (10:10)
- CRUD Operations in SPFx Web Part using PnP Core JS Library - Delete (4:08)

- CRUD Operations in SPFx Web Part using PnP Core JS Library - Display (5:47)
- Working with SPFx PnP Controls (People Picker) (22:10)
- SharePoint framework crud operations no javascript framework (PnP) (23:08)
- PnP React DatePicker with PnP ListView Control Example (9:55)
- PnP SPFx React Carousel Control and React Slick Slider (11:01)
- PnP SPFx react ChartControl (Pie Chart, Bar Chart, and Radar Chart) (9:57)
- PnP SPFx react GridLayout control and SecurityTrimmedControl (9:29)
- PnP SPFx React TaxonomyPicker Control (Single Value and Multi Value) (8:59)
- PnP SPFx React Property Controls (13:19)
- SPFx Files and Folders Operations using PnP (7:30)
- SPFx PnP Accessible Accordion React Example (4:20)
- SPFx PnP Code Editor Example (5:40)
- SPFx PnP Column Picker and List View Example (7:51)
- SPFx PnP FieldCollectionData control (6:42)
- SPFx PnP ListItemAttachments control Example (5:48)
- SPFx PnP React FilePicker Example (5:07)
- SPFx PnP React Carousel Example (4:01)
- SPFx PnP React ListView control with Contextual Menu and Group by Fields (4:56)
- SPFx PnP Pagination List Items Example (6:46)
- SPFx PnP Site Creation Operations (5:09)

Module-19: Deploying SharePoint Framework (SPFx) Artifacts

- Packaging and Deployment SPFx Web Part - SharePoint Online App Catalog Site (25:19)
- Packaging and Deployment SPFx Web Part - SharePoint Online CDN (29:12)
- Packaging and Deployment SPFx Web Part - Microsoft Azure Storage CDN (19:54)

Module-20: SharePoint Framework (SPFx) Extensions

- SharePoint Framework (SPFx) Field Customizer Extension (33:37)
- Apply SPFx field customizer extension to existing SharePoint list columns (3:53)
- SharePoint Framework (SPFx) Application Customizer Extension (22:24)

TSInfo Technologies (OPC) Pvt Ltd

Room 105, 5/2, SJR Residency, Devarabeesanahalli, Bellandur, Bangalore, 560103

Email: info@tsinfotechnologies.com, Phone: +91-9916854253

- SharePoint Framework (SPFx) ListView Command Set Extension (18:09)
- Bulk Update using ListView Command Sets SPFx Extensions and PnP (21:48)
- SharePoint Framework (SPFx) Command Sets Extensions (22:28)
- Working with Place Holders in SPFx Application Customizers (22:04)
- Inject CSS through SPFx Application Customizer (8:46)
- PnP SPFx SiteBreadcrumb control react (5:38)
- Create Custom Header and Footer menu From Term Store using Application Customizer (10:32)
- SPFx Application Customizer - React Slick Slider (7:05)
- SPFx Application Customizer - Fluent UI MessageBar (7:33)

Module-21: Brand your SPFx client web parts with Office-UI-Fabric or Fluent UI

- SPFx Office UI Fabric Introduction (6:53)
- Microsoft Fluent UI (10:58)
- Fabric Core (22:39)
- Start Fluent UI with React (13:19)
- CRUD Operations + React Tabulator + office ui fabric react controls (28:43)
- Create FAQ Web Part using React Fluent UI - GroupedList (11:14)
- Create Employee Directory Web Part SPFx with React and Graph API (17:40)
- Office UI Fabric ShimmeredDetailsList (10:18)
- Fluent UI ChoiceGroup (Radio Button) and Checkbox Example (19:37)
- SPFx Fluent UI Command Bar Example (13:20)
- SPFx Fluent UI Textbox, Multiline Textbox, MaskedTextField and Calendar Example (8:54)
- SPFx Fluent UI Contextual Menu Example (7:04)
- SPFx Fluent UI Hover Card with Detail List Example (6:27)
- SPFx Fluent UI DetailsList Example (Sort & Search) (9:56)
- SPFx Fluent UI Dialog Box Example (5:06)
- SPFx Fluent UI DocumentCard (5:48)
- SPFx Fluent UI Modal Example (5:27)
- SPFx Fluent UI Search Box Example (5:57)
- SPFx Fluent UI Pivot Example (6:54)
- SPFx Fluent UI Shimmer (4:22)
- SPFx Fluent UI DetailsList Shimmer Example (6:08)

Module-22: SharePoint Server 2019 and 2016

TSInfo Technologies (OPC) Pvt Ltd

Room 105, 5/2, SJR Residency, Devarabeesanahalli, Bellandur, Bangalore, 560103
Email: info@tsinfotechnologies.com, Phone: +91-9916854253

- SharePoint Server 2019 and 2016 Introduction (32:12)
- SharePoint 2019 and 2016 Farm Architecture and Installation Requirements (16:52)
- SharePoint Server 2019 Installation Part-1 (5:38)
- SharePoint Server 2019 Installation Part-2 (6:50)
- SharePoint Web Application and Site Collection (55:56)
- SharePoint Server Object Model (30:34)
- Create Feature using Visual Studio 2017 as Farm Solution (37:47)
- SharePoint 2016 visual web parts using visual studio 2017 (56:55)
- SharePoint Event Receiver Example with VS 2017 and SharePoint 2016 List (26:15)
- Timer Jobs in SharePoint 2016/2013/2019 (52:57)
- Create List Instance and List Definition using Visual Studio 2017 for SharePoint 2016/2013/2019 (12:25)
- Create Site Page using Visual Studio 2017 for SharePoint 2016 (11:12)
- Create Custom Action Group using Visual Studio 2017 for SharePoint 2016 (6:30)
- Remote Event Receiver in SharePoint Online Office 365 (Visual Studio) (34:06)
- Develop workflows using visual studio 2017 for SharePoint Online (16:36)
- Develop workflows using visual studio 2017 for SharePoint Online (Host Web) (12:00)
- Web Jobs in SharePoint Online (Step by Step) (33:04)
- Develop Deploy Web API to Azure and Call Web API in SharePoint Online VS workflow (32:31)

Module-23: SharePoint Migration

- SharePoint Migration - Understanding Upgrade Update and Migration (6:12)
- Why SharePoint Migration Required (8:27)
- Different ways for Migration (6:11)
- Pre Migration Analysis (30:36)
- Do you still need a tool for database upgrade approach (8:24)
- SharePoint Upgrade Database Approach Steps (22:01)
- Various SharePoint Migration Tools + Sharegate (9:19)
- Metalogix Overview (5:34)
- DocAve from AvePoint - Overview (3:13)
- Other tools like Docket Saketa HarePoint Express migration for SharePoint Overview (12:44)
- SharePoint migration using tool demo - screenshots (17:19)

TSInfo Technologies (OPC) Pvt Ltd

Room 105, 5/2, SJR Residency, Devarabeesanahalli, Bellandur, Bangalore, 560103
Email: info@tsinfotechnologies.com, Phone: +91-9916854253

- Free SharePoint Migration Tool from Microsoft (15:46)
- Lotus Notes to SharePoint Migration (18:24)
- Final Note on SharePoint Migration (3:49)

Module-24: Microsoft Teams

- Introduction to Microsoft Teams Training Module (2:16)
- How to use Microsoft Teams (25:02)
- Microsoft Teams Settings (10:09)
- How to create a group in Microsoft teams (13:21)
- How to invite guest or external users to Microsoft Teams Meetings (10:51)
- Connect to Microsoft Teams PowerShell + Examples (23:48)
- How to leave an organization as a guest user in Microsoft Teams (5:24)
- Private Channel in Teams (13:14)

Module-25: Nintex Forms for Office 365 SharePoint Online

- The Starting - Understand Process Automation (12:32)
- Introduction to Nintex (21:08)
- Nintex Forms for Office 365 (Architecture/Add to Site Collection/Life Cycle Events) (25:24)
- Customize First SharePoint List Form using Nintex for Office 365 (23:39)
- Various Components of Nintex Forms Designer (26:23)
- Nintex Forms Layouts (Classic Designer) (10:28)
